POWER TO TRANSFORM

★ CALIFORNIA ★
CORE

What is CORE?

The California Air Resources Board (CARB), in partnership with CALSTART, launched the **Clean Off-Road Equipment Voucher Incentive Project (CORE)** to accelerate the purchase of zero-emission off-road equipment in California.

CORE, analogous to the Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project (HVIP), is a project intended to encourage California companies to purchase or lease currently commercialized zero-emission off-road freight equipment by providing a streamlined voucher process to offset the higher cost of such technologies.

CORE voucher amounts are based on the incremental cost difference between traditional equipment and new zero-emission alternatives. Additional funding is available for charging infrastructure, equipment deployed in pollution overburdened communities (DACs), and equipment purchased by small businesses.
